

For each of the following quarters	Repayment installment may not be less than these percentages
5 to 8	5.0
9 to 12	17.5

If the State chooses to repay amounts representing higher percentages during the early quarters, any corresponding reduction in required minimum percentages would be applied first to the last scheduled payment, then to the next to the last payment, and so forth as necessary.

(2) The latest required financial reports submitted by the State shall be used to estimate the State's share of annual expenditures for the IV-D program. That estimated share shall be the sum of the State's share of the estimates for four quarters, beginning with the quarter in which the first installment is to be paid.

(3) In case of termination of the program, the actual State share—rather than the estimate—shall be used for determining whether the amount of the repayment exceeds 2½ percent of the annual State share for the IV-D program. The annual State share in these cases will be determined using payments computable for Federal funding as reported for the program by the State on its Quarterly Report of Expenditures and Estimates submitted for the last four quarters preceding the date on which the program was terminated.

(4) Repayment shall be accomplished through adjustment in the quarterly grants over the period covered by the repayment schedule.

(5) The amount of the repayment for purpose of paragraphs (a) and (b) of this section may not include any amount previously approved for installment repayment.

(6) The repayment schedule may be extended beyond 12 quarterly installments if the total repayment amount exceeds 100% of the estimated State share of annual expenditures.

In these circumstances, the criteria in paragraphs (b) (1) and (2) or (3) of this section, as appropriate, shall be followed for repayment of the amount equal to 100% of the annual State

share. The remaining amount of the repayment shall be in quarterly amounts not less than those for the 9th through 12th quarters.

(7) The amount of a retroactive claim to be paid a State will be offset against any amounts to be, or already being, repaid by the State in installments, under the same title of the Social Security Act. Under this provision the State may choose to:

(i) Suspend payments until the retroactive claim due the State has, in fact, been offset; or

(ii) Continue payments until the reduced amount of its debt (remaining after the offset), has been paid in full. This second option would result in a shorter payment period.

A retroactive claim for the purpose of this regulation is a claim applicable to any period ending 12 months or more prior to the beginning of the quarter in which the payment is to be made by the Service.

§ 304.50 Treatment of program income.

The IV-D agency must exclude from its quarterly expenditure claims an amount equal to:

(a) All fees which are collected during the quarter under the title IV-D State plan; and

(b) All interest and other income earned during the quarter resulting from services provided under the IV-D State plan.
